The Department of Mechanical and Industrial Engineering at Northeastern University invites applications and nominations for a tenure-track faculty position beginning in September 2011 at the Assistant Professor level. Applicants at the senior level with well-established, well-funded, and internationally recognized research programs will also be considered. Candidates are sought to expand the department’s research efforts in any area of mechanical engineering, but preferably in the field of applied mechanics. Excellence in teaching is also expected.

The Mechanical and Industrial Engineering Department has 33 full-time faculty with $10 million of annual research funding, and 100 PhD students. Northeastern is home to the NSF Nanoscale Science and Engineering Center for High-rate Nanomanufacturing. Northeastern is also the recipient of an NSF-funded ADVANCE grant for promoting the careers of women in engineering and science. Applications should include a detailed resume, along with a statement of research and teaching interests, and will be reviewed until the position is filled.

Northeastern University is an equal opportunity/affirmative action/Title IX employer. All persons are invited to apply regardless of race, color, gender, national origin, religion, disability, or sexual orientation.
